I am a software engineer with over 2+ years of experience in web application development. My expertise includes building scalable frontend applications using Next.js and implementing robust backend solutions with Node.js. I focus on creating efficient, maintainable solutions and continuously enhancing my skills in modern web technologies.

Work Experience

MSYS Technologies - Software Engineer

August 2022 - Present

Proficient in Next.js and Node.js, delivering scalable full-stack solutions that improved website performance by 30%, with expertise in implementing Strapi CMS to streamline backend workflows and reduce content management time by 40%, and optimizing UI/UX to enhance user engagement and reduce bounce rates by 25%.

Project Experience

Heartfulness — (Software Development & Service)

January 2024 - Present

- Implemented a streamlined UI design with Next.js that improved loading times by 50%, resulting in a 25% decrease in user drop-off rates and an overall boost in mobile session duration.
- Developed secure authentication and authorization protocols to enhance data security and ensure compliance with industry standards.
- Automated workflows with email integration, boosting efficiency and system performance.
- Partnered with design and content teams to develop an intuitive interface that led to a 20% reduction in support inquiries related to navigation issues over a six-month period, enhancing overall user experience.

GSM — (Software Development)

February 2024 - April 2024

- Successfully deployed GSM in partnership with Heartfulness and the Ministry of Culture, delivering a Next.js-based frontend that supported over 5,000 attendees during the Hyderabad event.
- Translated complex project requirements into intuitive UI designs, ensuring alignment with branding guidelines and enhancing user engagement metrics by 35% based on usability testing feedback from over 200 participants.

Amazon — (Software Development & Service):

June 2023 - January 2024

- Engineered APIs using Node.js to streamline backend processes with less response times.
- Managed 100% data migration from MongoDB to PostgreSQL, ensuring data integrity and system reliability.
- Ensured 100% understanding project requirements and communicated progress and ideas.
- Achieved project milestones by adhering to deadlines and maintaining high-quality standards.

Education

Dream Institute of Technologies, Kolkata — B.Tech

August 2018 - July 2022

Electronic And Communication Engineering with 8.82 CGPA.

Technical Skills

- **Front End** - HTML, CSS, Next.JS (React framework), Bootstrap
- **Back End** - Node.JS, Express.JS, Strapi
- **Programming** - JavaScript
- **Databases** - MongoDB, SQL, PostgreSQL
- **Tools** - GIT, Postman
- **Deployment** - Basics of AWS

Certifications

- Udemy Certificate of Completion in The Full JavaScript & ES6.
- Udemy Certificate of Completion in Node.js.
- PW Skill Certificate of Completion in Backend Development Course Program.
- Certification From startup India Learning program.
- Certification From Internshala Training in Web Development.
